

Application No.: 10/648,849
Filing Date.: August 22, 2003

SUMMARY OF INTERVIEW

Attendees, Date and Type of Interview

Applicants thank Examiner Patricia Mallari and Examiner Christian Jang for the personal interview with Applicants' representatives, Laura Johnson and Ned Israelsen, on September 17, 2009 to discuss the pending application.

Exhibits and/or Demonstrations

None.

Identification of Claims Discussed

Claims 119-122 and 161.

Identification of References Discussed

U.S. Patent Application Publication No. 2002/0026110 to Parris et al.

Proposed Amendments, Principal Arguments, and Other Matters

Applicants' representatives proposed to amend Claims 119-122 to incorporate allowable subject matter and to further distinguish over the art. Applicants' representatives identified subject matter in paragraph [0249] of the specification that would overcome the Section 112, paragraph 2 rejection of Claim 161. Possible new claims and various concepts were discussed, including signal artifact detection including the cone of possibility, an infinite impulse response filter, and various explanations in the detection and replacement of signal artifacts as a further insight. No agreement was reached.
